

Business items for November meeting consist of reports from chairs of scholarships, membership, necrology, community service and election of 2018 officers. The executive board has several ideas for programs for 2018 but are always in need of suggestions. If you have one, bring contact information along with the topic idea to our meeting. If you would like to serve on a committee, don't be shy. Our officers are always looking for ways to involve more members and broaden our involvement in the community.

There is no secretary's minutes included in this newsletter due to Pamela Nickell having suffered a stroke several weeks ago. After a stay at Bethesda North, she is receiving physical therapy in Greenfield. If you haven't already done so, you can send a card to her home address@ 6190 Mad River Road, Hillsboro OH 45133. Pamela continues to improve and we look forward to her rejoining us in the near future.

For those of us who took out cancer policies during our active teaching years, Washington National has recently been in the area updating their clients about new products available. They also have a heart and stroke policy that operates like the cancer policy. Pamela's stroke reminds us that it can happen to any one of us. How we deal with our health risks is a personal issue but something we should not ignore. As we age our risk factor for certain medical conditions naturally increase. Be wise and make sure you know your options.
